
CORNET Projekt „MICROPLEXFOOD“

Invitation to the 4th Mini Symposium
on Thursday, November 27th, 2025, from 1:00 p.m. to 3:00 p.m.

hosted by Leibniz Institute for Polymer Research (IPF), Hohe Str. 6, 01069 Dresden, Germany.
(If you want to join the meeting in person: please let us know!)

PROGRAM

01.00 p.m. Mini-Symposium – **ENGLISCH (open for everybody)**

- **Welcome & Introduction**
Dieter Fischer (Leibniz Institute of Polymer Research, IPF Dresden)
- **RECAP Microplastics in complex food – Findings and countermeasures**
Martin Löder (University of Bayreuth)
- **Particle-based analysis of microplastic with Raman microscopy, including method development** *Matthias Finger (Oxford Instruments | WITec GmbH)*
- **Smaller Plastics, Bigger Risks: Multimodal Submicron IR (O-PTIR), Raman, and Fluorescence Reveal the Unseen.** *Miriam Unger (Photothermal Spectroscopy Corporation GmbH, Mülheim an der Ruhr)*
- **Reflections on the continuing challenges surrounding the complexity of assessing human health risks to microplastic particles.** *Todd Gouin (Environmental Fate Modeller at TG Environmental Research, Sharnbrook, UK)*
