

13th International Symposium on Polyelectrolytes

ISP2020

June 21 - 25, 2020
Shanghai, China

1st circular

Since the first meeting in Germany (1995), the International Symposium on Polyelectrolytes has become a major biennial international forum in the field of polyelectrolytes.

Venue

The 13th Symposium, ISP2020, will be hosted by the East China University of Science and Technology (ECUST) at 130, Meilong Road, Shanghai

Topics

New polyelectrolytes, synthesis and characterization

Metallo-polyelectrolytes

Polyionic liquids, conjugated polyelectrolytes

Polyelectrolytes in cell biology, DNA

Polyelectrolyte complexes as colloids or materials

Polyelectrolyte gels

Membranes, surfaces and brushes

Theory and simulation

Applications
