Leibniz-Institut of Polymer Research Dresden - Confirmation Gender Equality Plan

We hereby confirm that IPF has a Gender Equality Plan that is updated every 4 years (Current: 2021-2024). The Gender Equality Plan includes, among other things, information on:

- commitment of dedicated resources and gender expertise to implement the GEP
- sex/gender disaggregated data collection and monitoring on personnel and annual reporting based on indicators
- awareness raising/trainings on gender equality and unconscious gender biases for staff and decision-makers

The IPF is certified according to "workandfamily" and HRS4R.
