

Curriculum Vitae

Dr. Michael Lang

Dr. Michael Lang
Leibniz-Institut für Polymerforschung Dresden
Hohe Straße 6
01069 Dresden, Germany

Phone: +49-351/4658744
Email: lang@ipfdd.de
Date of birth: September 9, 1973
Place of birth: Berching, Germany
Citizenship: German
Family status: married, 2 children

Employment as a scientist

- 09/2007-present Research Fellow at the Institute Theory of Polymers of the Leibniz-Institute of Polymer research; since 01/2015 substitutional head of the Institute Theory of Polymers
Research topics:
- Elasticity and Swelling of polymer networks
 - NMR analysis of polymer networks
 - Polymer Brushes: conformations, dynamics, and stabilization by cross-linking
 - Topological interactions between polymers
 - Olympic gels
 - Super-absorbent polymers (Cooperation with Evonik Industries)
 - Thin films (SPP1369)
 - Dynamics and relaxation of polymer materials
 - GPU simulation of polymer materials
- 09/2005-08/2007 Research Fellow in the lab of Prof. Rubinstein, University of North Carolina, NC, USA. Research topics:
- Rheology of cyclic polymers
 - Bi-disperse blends of polymers
 - Rheology and stability of the airway surface layer
 - Determination of entanglement parameters
 - Molecular dynamics simulations
- 12/2004-08/2005 Research Fellow in the lab of Prof. Göritz, University of Regensburg, Germany
- Monte Carlo simulation of nanoparticle aggregation
 - Conductivity analysis of resistor networks

Education

- 06/2001-11/2004 Ph.D. in Physics ("Summa Cum Laude"). Title of thesis: „Bildung und Struktur von polymeren Netzwerken“, supervisor Prof. Kreitmeier, University of Regensburg, Germany
- 11/1999-06/2001 Diploma in Physics. Title of thesis: „Strukturuntersuchungen an computergenerierten polymeren Netzwerken“, supervisor: Prof.

- 10/1993-11/1999 Kreitmeier, University of Regensburg, Germany
High School Teacher Mathematics and Physics („Lehramtsstudium
Gymnasium Mathematik und Physik“), University of Regensburg,
Germany
- 08/1984-06/1993 High School Diploma („Abitur“) Willibald Gymnasium Eichstätt,
Germany

Visiting Scientist and Summer Schools

- 06/2006-07/2007 Boulder Summer School on Physics of Soft Matter: Complex Fluids
and Biological Materials
- 04/2005 Visiting scientist at the Max-Planck-Institute for the Physics of
Complex Systems, Dresden, group of Prof. Jülicher
- 01/2005-03/2005 Visiting scientist at the University of North Carolina, NC, USA with
Prof. Rubinstein on the visco-elasticity of polymer networks
- 11/2004-12/2004 Visiting scientist at the CNRS, Mulhouse, France with Prof. Sommer
on the scattering of polymer gels

Stipends and Awards

- 11/2014 Best poster award of the Polymer Networks Group Meeting in Tokyo
- 06/2001 Ph. D. Stipend of the Faculty of Physics as a reward for an
outstanding diploma thesis

Fundraising

- 2017-2020: Ph.D position (3 years) for T. Müller, DFG Project LA2735/5-1
- 2017-2020: Ph.D position (3 years) for K. S. Kumar, DFG Project LA2735/5-1
- 2013-2015: Post-doc position (2 years) for Dr. A. Galuschko via SPP 1369
- 2011-2013: Post-doc position (2 years) for Dr. S. Nedelcu, DFG Project LA2735/2-1
- 2010-2011: Post-doc position (2 years) for Dr. J. Krawczyk, DFG Project LA2735/2-1
- 2009-2012: Own position (3 years), DFG Project LA2735/2-1

Post-Doc and Student Supervision

Leibniz-Institut für Polymerforschung, Germany, with Prof. Sommer:

- Since 2017: Ph. D. thesis of T. Müller and K. S. Kumar
- 2016-2017 Master thesis of T. Müller, „Computer Simulations of the shear
deformation of entangled and unentangled polymer networks“
- 2016-2017 Master thesis of C. Strübig, „Wirkung rotierender Nanomotoren auf
Polymere Dopplestrang- und Netzwerksysteme“
- 2013-2015 A. John, Post-Doc, „Superabsorbers“, Industrial cooperation with
Evonik Industries.
- 2013-2015 A. Galuschko, Post-Doc „Monte Carlo simulation of thin film
polymer melts“
- 2010-2011 J. Fischer, diploma thesis, „Untersuchung von Olympischen Gelen
unter Nutzung des Bindungsfluktuationsmodells“
- 2011-2013 S. Nedelcu, Post-Doc, „GPU implementations of the bond
fluctuation model“
- 2010-2012 J. Krawczyk, Post-Doc, „MD-Simulation of Model Networks“
- 2009-2010 K. Schwenke, diploma thesis, „Simulation and Theory of Properties

2008-2009 of branched Polymers and their Cross-linking"
M. Hoffmann, diploma thesis „Theory and Simulation of cross-linked Polymers at Surfaces“

University of Regensburg, Germany, with Prof. Göritz / appl. Prof. Kreitmeier:

2004-2005 D. Güntner, diploma thesis „Analysis of conductivity networks“
2004-2005 M. Malinowski, diploma thesis „Computer Simulation of the Aggregation of Carbon Black“

Teaching

WS 2018/2019 Theoretical Polymer Physics, TU Dresden, Germany
SS 2018 Computer simulation of soft condensed matter, TU Dresden, Germany
SS 2017 Computer simulation of soft condensed matter, TU Dresden, Germany
WS 2016/2017 Theoretical Polymer Physics, TU Dresden, Germany
SS 2016 Computer simulation of soft condensed matter, TU Dresden, Germany
SS 2015 Computer simulation of soft condensed matter, TU Dresden, Germany
WS 2014/2015 Theoretical Polymer Physics, TU Dresden, Germany
SS 2014 Computer simulation of soft condensed matter, TU Dresden, Germany
WS 2012/2013 Theoretical Polymer Physics, TU Dresden, Germany
SS 2011 Polymer Physics, TU Chemnitz, Germany (sabbatical of Prof. Magerle)
WS 2010/2011 Theoretical Polymer Physics, TU Dresden, Germany
WS 2008/2009 Theoretical Polymer Physics, TU Dresden, Germany

Referee/Reviewer

- Deutsche Forschungsgemeinschaft (DFG) and National Research Foundation (NSF)
- Physical Review Letters, Physical Review E, Macromolecules, ACS Macro Letters, Soft Matter, Journal of Polymer Science, Journal of Chemical Physics, Journal of Computational Physics, ...

Other employments and National Service

06/1993-08-2005 Second occupation as organist of the catholic parish „Mariä Himmelfahrt“ in Obermässing. Director of two church choirs.
09/1993-08/2001 National service („Wehrersatzdienst“) as emergency medical technician, Bayrisches Rotes Kreuz in Beilngries, Eichstätt and Regensburg, Germany

Languages

German (native speaker), English (fluent), Latin (qualification: „Latinum“), ancient Greek (qualification: „Graecum“)

Publications

Publications statistics (as of 12/31/2018)

Total written publications:	37
Publications in peer reviewed journals:	33
Book Chapters / Conference Proceedings:	4
First author publications:	25
Corresponding author:	27
Citations:	831 (Google Scholar)
h-factor:	15 (Google Scholar)
Talks (first author only):	47
Invited talks at international meetings:	3
Posters:	36

Current information on all journal and book publications and some posters is available via Google Scholar:

<https://scholar.google.de/citations?user=NZLjnuUAAAAJ&hl=en>

or through my institutional homepage (paper in journals and books only):

Invited Talks at National and International Meetings

1. **M. Lang**, D. Göritz, and S. Kreitmeier, „Entanglements in Polymer Networks“, Paul-Flory Symposium of the Rubber Division of the ACS spring meeting, San Francisco (2003).
2. **M. Lang**, „The distribution of segmental order in polymer networks“, Hauptvortrag, DPG spring meeting, Regensburg (2013).

3. **M. Lang**, „Topological interactions between cyclic polymers“ Topical Workshop - Ring Polymers: Advances and Perspectives, (2015) in Heraclion, Crete, Greece.

Talks at conferences (as speaker only)

1. **M. Lang**, „The elasticity of phantom networks with cyclic and linear defects“, DPG Spring Meeting Berlin (2018).
2. **M. Lang**, „On the elasticity of phantom networks with cyclic and linear defects“, Polymer Networks and Gels 2018, Prag (2018).
3. **M. Lang**, „Molecular Simulation of Rubber Elasticity“, Frontiers of Rubber Science and Technology, Dresden (2017).
4. **M. Lang**, „Cross-link Fluctuations in Entangled Networks“, DPG spring meeting, Dresden (2017).
5. **M. Lang**, M. Werner, R. Dockhorn, T. Kreer, „On the dynamics of densely grafted polymer chains“, DPG spring meeting, Regensburg (2016).
6. **M. Lang**, M. Rubinstein, J.-U. Sommer, D. Romeis „Conformations of a Long Polymer in a Melt of Shorter Chains: Generalizations of the Flory Theorem and consequences for chain conformations in polymer brushes“, 4-th International Workshop - Theory and Computer Simulation of Polymers: New Developments, Halle (2015).
7. **M. Lang**, M. Rubinstein, J.-U. Sommer, „Conformations of a Long Polymer in a Melt of Shorter Chains: Generalizations of the Flory Theorem“, European Polymer Federation Meeting, Dresden (2015)
8. **M. Lang**, M. Rubinstein, J.-U. Sommer, „Conformations of a Long Polymer in a Melt of Shorter Chains: Generalizations of the Flory Theorem“, DPG-spring meeting, Berlin (2015).
9. **M. Lang**, J.-U. Sommer „Olympic Gels“, Polymer Networks and Gels, Tokyo (2014).
10. **M. Lang**, J. Fischer, M. Werner, J.-U. Sommer, „The swelling of Olympic gels“, APS March Meeting, Denver, Colorado (2014).
11. **M. Lang**, J. Fischer, M. Werner, J.-U. Sommer, „The swelling of Olympic gels“, DPG spring meeting Dresden (2014).
12. **M. Lang**, J. Fischer, J.-U. Sommer, „The effect of topology on the conformations of cyclic polymers in melts“, APS Spring Meeting, Baltimore (2013).
13. **M. Lang**, J.-U. Sommer, „The distribution of segmental order in polymer networks“, DPG spring meeting Dresden (2011).
14. **M. Lang**, J.-U. Sommer, „Segmental order of entangled polymer networks is controlled by monomer fluctuations along the confining tube“, APS Meeting, Portland, Oregon (2010).
15. **M. Lang**, J.-U. Sommer, „Analysis of Tube Reorientation and Segmental Order in Polymer Networks“, Polymer Networks Group Meeting, Goslar (2010).
16. **M. Lang**, J.-U. Sommer, „Chain conformations in bi-disperse blends of linear chains“, DPG spring meeting, Dresden (2009).
17. **M. Lang**, S. Panyukov, M. Rubinstein, J.-U. Sommer, „On the statistics of Gaussian two and three-dimensional networks: Fluctuations of junctions and collapse driven by structure“, APS March Meeting, New Orleans (2008).

18. **M. Lang**, S. Panyukov, M. Rubinstein, J.-U. Sommer, „On the statistics of Gaussian two and three-dimensional networks: Fluctuations of junctions and collapse driven by structure“, DPG spring meeting, Berlin (2008).
19. **M. Lang**, J.-U. Sommer, „On the origin of the scattering of gels and swollen polymer networks“, 5th European Conference on Constitutive Models for Rubber (ECCMR), Paris (2007).
20. **M. Lang**, M. Rubinstein, „Dynamics of melts consisting of circular and linear polymers“, DPG spring meeting, Regensburg (2007).
21. **M. Lang**, J.-U. Sommer, „The scattering of polymer gels and networks: Origin and relation to network structure“, DPG spring meeting, Regensburg (2007).
22. **M. Lang**, M. Rubinstein, „Dynamics of melts consisting of circular and linear polymers“, APS March meeting, Denver (2007).
23. **M. Lang**, M. Rubinstein, C. W. Davis, R. Tarran, R. Boucher, „A model for the volume regulatory mechanism of the Airway Surface Layer“, APS March meeting, Baltimore (2006).
24. **M. Lang**, D. Göritz, S. Kreitmeier, „Intra-molekulare Reaktionen in linearen und nicht-linearen Polymerisationen“, DPG spring meeting, Berlin (2005).
25. **M. Lang**, D. Göritz, S. Kreitmeier, „Computer simulations on swelling and deformation experiments of polymer networks“, DPG spring meeting, Berlin (2005).
26. **M. Lang**, D. Göritz, S. Kreitmeier, „Der wechselseitige Einfluss von Struktur und Dynamik in einem polymeren Netzwerk“, DPG spring meeting, Berlin (2005).
27. **M. Lang**, D. Göritz, S. Kreitmeier, „Entanglements and structure of polymer networks“, Kautschuk Herbst Kolloquium, Hannover (2004).
28. **M. Lang**, M. Malinowski, D. Güntner, D. Göritz, S. Kreitmeier, „Computer Simulation of Structure and Conductivity in Carbon Black Filled Elastomers“, Filler Reinforcement of Rubbers, London (2004).
29. **M. Lang**, D. Göritz, S. Kreitmeier, „Simulations on formation and structure of polymer networks, Polymer networks group meeting, Bethesda (2004).
30. **M. Lang**, D. Göritz, S. Kreitmeier, „Simulations on swelling and deformation of polymer model networks“, APS March meeting, Montreal (2004).
31. **M. Lang**, D. Göritz, S. Kreitmeier, „The effect of spatially inhomogeneous mixing of polymers and cross-links for end-linked polymer networks“, DPG spring meeting, Regensburg (2004).
32. **M. Lang**, D. Göritz, S. Kreitmeier, „Strukturen polymerer Netzwerke im Vergleich“, DPG spring meeting, Regensburg (2004).
